

So you can focus on care.

Trupanion is the first (and only!) provider that can pay hospitals directly at checkout. Here's why that matters:

Your team doesn't have time for traditional pet insurance.

By eliminating tedious paperwork and the need for estimate revisions when clients can't afford plan 'A', Trupanion helps hospital teams get back to what matters most: their patients.

✓ **Trupanion pays invoices directly to hospitals in under 30 seconds on average!**

Many pet parents can't afford to wait for reimbursement.

Trupanion can pay our share of an invoice directly to any hospital at checkout. This helps responsible pet parents say 'yes' to recommended treatment without worrying about upfront costs.

✓ **Direct payment to hospitals is the #1 reason pet parents choose Trupanion to protect their pets!**

When veterinary teams are empowered to practice their best medicine, everyone wins!

Trupanion members visit 80% more...

When pet parents are only responsible for their share of the bill, pets can visit the vet whenever they need to.

...they'll receive more care...

With Trupanion, pet parents can say yes to the care their pet needs, not just the care they can afford.

...and they love coming back!

Because Trupanion helps take finances out of the conversation, clients only experience your team's best care!
