

How does a \$3 squeaky toy turn into a \$5,000+ surgery?

It's easier than you think.

Saving for your pet's unexpected medical bills is a great idea — until real life gets in the way. You work hard for your money; spend it on what you want.

A Trupanion policy protects your pet from the unexpected:

- Unlimited payouts for eligible costs
- Available when you need it
- Open 24/7/365 to support you

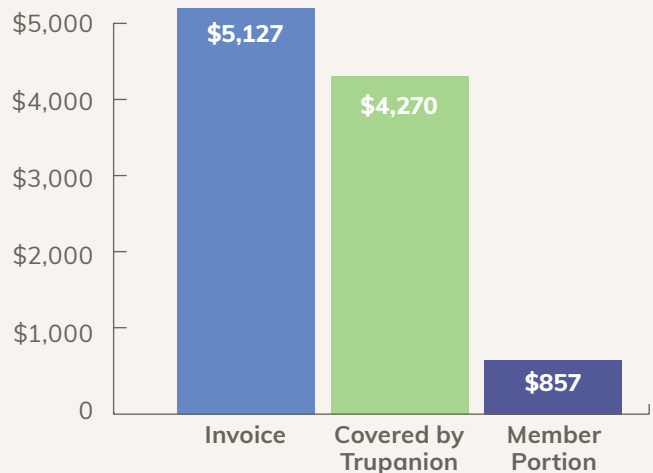

Plus, Trupanion is the only provider that can pay your veterinary hospital directly at the time of your visit.

You cannot predict what you will need to provide care for a pet and therefore cannot save the right amount to cover the care — medical insurance prevents you from having to worry about a savings balance — you get to just provide the best care without considering the cost or the total amount that has been saved.”
